

**Anton Tulenev**  
*Designer*

Anton Tulenev - a web designer performing graphic and web design. He found his calling while still in school. At 16 he completed his first web projects. Along with studying at Kyrgyz-Russian Slavic University majoring in Software, Anton held the position of a designer at WISCO. Further on, he worked on a freelance basis doing projects for large prominent companies from Russia, Kazakhstan and Germany. In particular, Anton designed websites for KIRBI, the local chips manufacturer, "Altyn Orda" retail shopping center in Kazakhstan as well as the Federation of Restaurateurs and Hoteliers of Russia, etc.

While working at Flexi, Anton continues to cooperate with many local designers and is an active contributor to Kyrgyz design community development. He act as the driving force of creative campaigns that bring together the imagination, talent and desire to create among his peer professionals and like-minded friends. FC values Anton's experience, his discipline, abstract thinking, ability to understand client's needs and the capability to come up with innovative solutions to trivial tasks.
