

Vladislav Luzin

Designer

For over 6 years has been involved in multimedia presentations development, web design, 3d modeling and graphic design. He spent 5 years working for Ikeen Group, a company specializing in developing various software products primarily for Kazakhstan (large banks, telecommunications companies etc.). During this time he was part of the process of usability development for all the programs, web sites and payment interfaces (ATMs, CashIn). Prior to joining Ikeen Group Vlad spent one year working at "Aeroplan" creative association, where he was responsible for filming and editing videos, programs, video and multimedia presentations. He spends his leisure time on planning private parties and night club events in Bishkek, which he has been doing for about 8 years.

To me, my profession is...
The basic hobby in life

Career highlights
Working in Ikeen Group, has received wide experience in sphere of working out of interfaces and multimedia presentations

I chose Flexi Communications
For interesting tasks in job

I am proud of
That I am able and to that else I can learn

What matters to me is
To be oneself

Apart from work I am interested in
Everything that is connected with music

I also can
I the DJ and the musician

I want to learn
To tricks on snowboard
